**SUBJECT:** FY 2007 Appropriation Request

**DATE:** July 29, 2005

This booklet contains the sample forms, instructions, and guidelines for the preparation of the Fiscal Year 2007 Appropriation Request.

Fiscal Year 2007 current level is limited to the same funding for all appropriated accounts as FY 2006 (less any one-time appropriations and surplus appropriations), and any requests for specific increases must be submitted as defined in this booklet.

Department Heads have the option of moving money between funds/agencies/programs as necessary as long as the department/bureau total for General Revenue and Lottery Fund is equal to or less than the FY 2006 base appropriation.

Requests for improvements above the FY 2006 appropriation may be submitted, but must include how the anticipated benefits related to the improvement will be measured and how these benefits relate to the program's mission.

For your convenience in preparing the FY 2007 request, we have enclosed the following:

- Division Evaluation Summary (Form AR1) as it appeared for FY 2006
- Division Account Summary (Form AR2, AR2A) for FY 2007 taken from your current approved Expenditure Schedule(s)
- Schedule of Federal Funds for each Grant (Form AR3) as submitted for FY 2006 (if applicable)
- Narrative Information (diskette and hard copy) as it appeared in the FY 2006 Executive Budget

In accordance with Chapter 11B, Article 2, Section 3, of the West Virginia Code:

The following shall be submitted to the State Budget Office, Building 1, Room W-310, Capitol Complex, Charleston, West Virginia 25305, on or before September 1, 2005.

One copy of forms AR1 through AR11 shall be submitted to your cabinet secretary, if applicable.

Two copies of the request shall be submitted to the Legislative Auditor's Office, Budget Division, Building 1, Room W-332, Capitol Complex, Charleston, WV 25305.

The date for Appropriation Request submission is established by Chapter 11B, Article 2, Section 3, of the West Virginia Code, therefore, extensions for submitting the request after September 1, 2005, cannot be granted.

By law, failure to submit the appropriation request by September 1<sup>st</sup> may result in all of the agency's encumbering and expending of funds being held until the request has been filed with the State Budget Office and the Legislative Auditor.

Each department secretary will be contacted by my office to schedule a budget hearing relative to the appropriation request for each agency.

Appropriation Request forms and instructions are available on the Internet at the following address: http://www.wvbudget.gov.forms.htm. You may also request a copy of the Appropriation Request forms on diskette or by e-mail, by calling Jerri Rucker at 558-0040 or e-mailing budget@wvbudget.gov.

## Section I Instructions and Forms

## **Basic Assumptions**

## General Revenue and Lottery Funds

Please review the Appropriation Request forms and instructions carefully before you begin to prepare your division's request.

Several basic assumptions have again been incorporated into the *Executive Budget* guidelines that warrant special attention:

- 1. Current Level for FY 2007 will be at the same level as the budgeted FY 2006 base, less any onetime or surplus appropriations. No increase in positions may be requested at the current level. The request must also include the following:
  - a. An additional \$50 annual increment for each eligible employee and an increase to employee benefits to cover the additional cost of increment.
  - b. Employee Benefits and Annual Increment are to be paid from the same account number that the salary of the employee is paid.
  - c. A reserve for PEIA transfer of 1% of annualized personal services expenditures from state funds (nonfederal) based on <u>estimated</u> filled full-time equivalent positions on April 1, 2007. (Chapter 11B, Article 2, Section 15, of the West Virginia Code)
- 2. The request shall not include increases for PEIA (object 012), or BRIM, as the State Budget Office intends to add these as additional funds to your division/agency.
- 3. All improvements above current level, including new positions, shall be requested on Form AR4 and shall <u>indicate if this is a one-time request or continuing request.</u> Any improvement request resulting from a court order or statutory mandate shall state such and shall identify the date and reference of the court order or statute.

Improvements above Current Level must include how the anticipated benefits will be measured and how they relate to the program's mission.

## Special Revenue and Federal Funds (except Lottery)

Please review the Appropriation Request forms and instructions carefully before you begin to prepare your division's request.

Several basic assumptions that warrant special attention have again been incorporated into the *Executive Budget* guidelines.

- 1. Current Level for FY 2007 is the same level as the FY 2006 appropriated amounts for ALL appropriated funds (federal and special) plus increases as defined in #2 below, less any FY 2006 appropriations designated by the Legislature as "one-time appropriation or surplus appropriations." No increase in funding or positions may be requested at the current level except for PEIA and BRIM. However, the request must include the following within the current level:
  - a. An additional \$50 annual increment for each eligible employee and an increase to employee benefits to cover the additional cost of increment.
  - b. Employee Benefits and Annual Increment are to be paid from the same account number that the salary of the employee is paid.
  - c. A reserve for PEIA transfer of 1% of annualized personal services expenditures from state funds (nonfederal) based on <u>estimated</u> filled full-time equivalent positions on April 1, 2007. (Chapter 11B, Article 2, Section 15, of the West Virginia Code)
- 2. Increase your appropriation request for the following:

```
PEIA Object 012 - 5% increase.
BRIM Object 032 - 3% increase (estimated/average)
```

3. All improvements above current level, including new positions, shall be requested on Form AR4 and shall <u>indicate if this is a one-time request or continuing request</u>. Any improvement request resulting from a court order or statutory mandate shall state such and shall identify the date and reference of the court order or statute.

Improvements above Current Level must include how the anticipated benefits will be measured and how they relate to the program's mission.

## Division Account Summary Forms AR2, AR2A

General Information - This form is a summary of each FY 2006 appropriated fund of the division along with the corresponding federal fund(s) and nonappropriated Special Revenue fund(s). After the Appropriation Requests are reviewed and the recommendations are determined, these forms will be completed with appropriate amounts for inclusion in the *Executive Budget*. Please do not write in the column entitled "Recommendation."

There must be a separate AR2 filed for each General Revenue, Appropriated Special Revenue, and Federal Block Grant Funds for your agency.

For the FY 2007 Appropriation Request, it is not necessary to list each object code, with the exception of Employee Benefits. However, each activity that is "Unclassified" or is an appropriation for a program such as GAAP Project, Womens' Commission, Office Automation, etc., must be shown using the following category breakdown: Personal Services, Annual Increment, Employee Benefits (by object code), Total Current Expenses, Total Repairs and Alterations, Total Assets, and Total Other Disbursements (Note: Total Other Disbursements will include all objects not associated with Current Expenses, Repairs and Alterations, or Assets).

Although Employee Benefits is the only activity that requires a breakdown to the object code level, you may be required at a later date to provide more detailed information by fund number to the State Budget Office and the Legislature.

**FY 2005** Actual State - This column shall contain the Actual expenditures for both appropriated and reappropriated General Revenue and Special Revenue funds, as well as all Federal Block Grants that are appropriated in the Budget Act. These amounts shall agree with the Auditor's Monthly Line Item (object code) Report, WVR 4020.

The Actual expenditures for Employee Benefits shall be reported at the object code level; all other Actual expenditures shall be reported at the category level.

**FY 2006 Budgeted** - "General" - Enter the amount budgeted, by object code, for Employee Benefits and by Category for all other items, for the General Revenue fund for FY 2006 as shown on the approved

**Debt Service** - The cost of paying principal and interest on borrowed money according to a predetermined payment schedule. Enter the actual amount of debt service payments to be made during each fiscal year.

Start/completion date - Indicate dates of project.

Financed or leased? - Mark "X" in appropriate space provided. If "yes," state the annual interest rate.

Method of financing/leasing - Describe the terms of the finance options or lease contract.

**Describe funding sources** - Provide detailed information regarding the source(s) of funding for this project. Describe any special revenue funds, federal grants, requests for supplemental appropriations or improvements, or any proposed bonds, debt service, or other methods of financing options that are being considered.

**Description and justification of project** - Give a concise narrative explanation of the project and what is to be accomplished. The description should include the location of the improvement, its size or dimensions, and the type of construction proposed (if any). If the exact location of the project has not been determined, please indicate the proposed site(s). If the project is an equipment purchase, describe the nature of the purchase and its related benefits. Also, indicate the need for the proposed project and the reasons for selecting the proposed time period. Please cite any compliance issues (ADA, OSHA, etc.) or legal mandates that necessitate this project.

You are encouraged to identify the anticipated nonfinancial impact of significant nonroutine capital expenditures. Examples – cleaner environment, improved response time by public safety employees, smaller class sizes in schools.

If you are requesting an improvement package or supplemental appropriation to fund this project, or if the proposed funding is otherwise uncertain, describe the effect on the project if a portion of the funding were not provided. (For example, if 50% of the funds for a project are from your current level request and 50% are being requested as an improvement, what will be the status of the project if the improvement is not granted? Will the other funding still be used to execute a portion of the project? Will the project be downscaled to match the available funds? Will the project be canceled completely? If so, where will the current level funds be used?)

#### IMPACT ON OPERATING BUDGET:

Annual Impact on Operating Budget - Indicate any anticipated increase or decrease in operating costs resulting from this project. (Increases are to be shown as positive (+) numbers; decreases are to be shown as negative (-) numbers.) If no impact is anticipated, you must indicate by entering zeros. Costs listed should reflect estimated expenditures and/or savings for the first full year of operation. For example, construction of a water main would not increase operating costs, but may produce some savings. Construction of a new maintenance facility may increase operating costs for utilities and supplies. Future year costs should be addressed in the project description narrative. Current year estimates for operating costs are to be based on FY 2006 dollars, and any future costs described in the narrative should not be adjusted for inflation.

**Describe how this project will affect your agency's operating budget** - Describe the nature of the increases/decreases shown in the previous item (e.g., Why are additional personnel needed? What classification of personnel? Why will this project cause utility costs to decrease/increase? Why will this project cause maintenance costs to decrease/increase?).

**AR11** 

#### Division Program Summary Form AR11

**Department/Bureau** - Enter Constitutional Office/Department/Bureau submitting the request.

**Division** - Enter the name of the division submitting the request.

**Programs -** List programs from Form AR10. Enter **totals** for FY 2005 Actuals, FY 2006 Base, and FY 2007 Current Level Request. A separate program summary, Form AR10, must be completed for each program listed on the Division Program Summary, Form AR11.

**Expenditure Summary -** Consolidate all programs by major category of expenditures (Number of Positions, Total Personal Services, Employee Benefits, Unclassified).

On AR11, total programs should balance under the Programs section and the Expenditure Summary section. Totals for the FY 2006 Base and FY 2007 Current Level Request should match the totals of all AR2/AR2A's for the division.

#### **Narrative Instructions**

#### Purpose

The purpose of the budget narratives is to provide brief descriptions of all agencies in state government. In general, the narrative explains an agency's mission and shows (through operations, goals, objectives, and performance measures) how that mission is to be accomplished in the coming fiscal year.

#### Organization

The narratives organize state agencies into three levels:

- The highest level is the Constitutional Officer, Department, or Bureau: established by state law.
- The next level down is *Division*: a primary entity of government that receives an appropriation in the budget bill.
- The lowest level is *Program:* a group of related activities performed by one or more organizational units to accomplish a function for which the government is responsible. (A unit can be a division, section, or workgroup.)

Because different information is requested from each level, please review the section levels on the "Checklist of Requested Information" page to determine what information should be submitted.

#### Enclosures

- a printed copy of your agency's narrative from the FY 2006 Executive Budget and
- a diskette of the narrative text (without styles) from the FY 2006 Executive Budget.

#### Preparation

- Begin with the narrative file on the enclosed diskette. Do not use the narrative as you submitted it last year or it will be returned.
- Changes to an agency's organizational chart (if applicable) may be written directly on the printed copy.
- If your agency is unable to read or write to a diskette, call Diana Schwab at 558-5890.
- The programs included in your narrative should match the programs listed on the Appropriation Request Forms AR10 and AR11.

• Follow carefully the directions for changing the "Estimated" and "Actual" statistical performance measures. Details for these measures are located near the end of this chapter under "Updating Statistical Performance Measures" on page 56.

#### Narrative Formatting Guidelines

- Use a single space (not two spaces) between sentences.
- Avoid manual page breaks ("Control" + "Enter"). Let your narrative flow across pages.
- Every acronym in the narrative must be spelled out in the text (the first time it is used) and included in a list submitted with the appropriation request.
- Use tabbed columns for the six-column, statistical performance measures. (The columns are not required to line up.)
  - Use a single tab between each column. (Do not use the spacebar to align.)
  - ► Do not use a table.
- If a six-column performance measure uses statistics with decimal points, each statistic must display the same number of decimal points across that row.

#### Submitting the Narrative

Submit one printed copy of your budget narrative <u>and</u> a copy on diskette to the State Budget Office on or before September 1, 2005. The narratives will be formatted, edited, and returned to the agencies for hard copy proofing before the FY 2007 *Executive Budget* is printed.

If you have any questions regarding the narrative, please call Diana Schwab at 558-5890 or send an e-mail to budget@state.wv.us.

# Narrative Instructions for Constitutional Officers/Departments/Bureaus

**MISSION STATEMENT** - The mission statement gives the reason for the Constitutional Officer, Department, or Bureau's existence. It should respond to the following questions:

- What is unique about your product or service?
- Who is your intended primary client or target group?
- Why is your product or service of benefit?

#### Example:

The Department of Military Affairs and Public Safety's mission is to provide for the public safety of the people of West Virginia and to provide these services effectively and efficiently through a highly motivated and professional workforce.

**GOALS AND OBJECTIVES** – Goals are established by the agency. They are issue-oriented statements that declare what an agency intends to accomplish to fulfill its mission.

Objectives are detailed, <u>quantifiable</u>, <u>time-specific</u> statements of activities related to achieving the goals. They are targets for specific agency or program actions.

#### Example:

Listed below is a goal of the Higher Education. The goal has two objectives that detail how the agency plans to accomplish the goals.

#### **Economic Development**

#### Better educated workforce equals a better economy.

- Create by 2005 a total of 5,000 new jobs directly related to training and education programs of public colleges and universities.
- Create 2,000 new research-related jobs by 2005.

#### **Narrative Instructions for Divisions**

**MISSION STATEMENT** - The mission statement gives the reason for the division's existence. It should respond to the following questions:

- What is unique about your product or service?
- Who is your intended primary client or target group?
- Why is your product or service of benefit?

#### Example:

Public Defender Services provides funds to attorneys and other service providers who defend indigents accused of crimes and other wrongdoing in order to ensure that constitutionally-required due process protections are afforded to all citizens regardless of wealth.

**OPERATIONS** – The Operations section details the activities and/or functions of the division. Since divisions are commonly broken down into programs, the Operations section can also list these programs and their respective functions.

#### Example:

Listed below are some of the detailed activities and/or functions of the Division of Culture and History.

#### **Archives and History Section**

- Operate the Archives Library as a repository for public and historical records and assist the public with access to those records.
- Collect and preserve historical and genealogical records, publications, photographs, audiovisual material, and microfilm.

#### **Museum Section**

- Operate the agency's museums and historic sites.
- Preserve, present, document, and conserve the state's collection of artifacts.
- Plan and execute the agency's calendar of events and programs, including festivals, theater productions, concerts, conferences, and workshops.

NOTE: If a division has no listed programs, then information should be submitted to include mission, operations, goals/objectives, and performance measures.

#### **Narrative Instructions for Programs**

**MISSION STATEMENT** – The mission statement gives the reason for your program's existence. It should address the following questions:

- What product or service does your program provide?
- Who is your program's client or target group?
- Why is your program provided?

#### Example:

Provide support for computer systems used by the Tax Division to perform daily tax administration functions.

**GOALS/OBJECTIVES** - Goals are established by the agency. They are issue-oriented statements that declare what an agency intends to accomplish to fulfill its mission.

Objectives are detailed, quantifiable, time-specific statements of activities related to achieving the goals. They are targets for specific agency or program actions.

#### Example:

Listed below are two goals of the Revenue Division program of the Tax Division. Under the goal are two objectives that detail how the Revenue Division plans to accomplish that goal.

Successfully implement the Data Reengineering and Modernization (DREAM) project utilizing the remittance processor funding.

- Increase to 70% the checks presented by image to the State's financial institution by FY 2007.
- Expand to 80% the data captured through automated recognition technologies by FY 2007.

**PERFORMANCE MEASURES** - Performance measures are a tool used by all levels of management, as well as the public, to determine whether a program is accomplishing its mission efficiently and effectively.

<u>A program's performance measures should be linked to its goals.</u> The Revenue Division goals shown above could be performance measures where the actuals and estimates are measured in percent. Agencies

are not required to use the same performance measures as the previous year; as goals and objectives change and improve, so may performance measures change and improve.

There are three steps that program managers must perform in order to develop meaningful measures.

#### Step 1: Define program mission.

**Step 2:** Identify performance results. Performance results can be classified into three types: client benefits/impacts, strategic outcomes, and work process outputs.

#### NOTE: Only the "Client Benefits/Impacts" should be submitted in a program narrative.

- A. Client Benefits/Impacts (Most important)
  - These describe what you do directly for your customers.
  - Reflect the extent of achievement of the program's objectives.
  - Likely to be viewed by the public as a benefit.

NOTE: Although client benefits/impacts are preferred for the narrative, strategic outcomes and the work process output types are listed because it may be helpful to start with them as steps toward developing the desired performance measures.

#### B. Strategic Outcomes

- These describe the consequences of the program.
- Reflect most closely the achievement of the program's objectives.

• Influenced by outside factors, so the results are forecast rather than planned.

| Examples of Strategic Outcomes   | :      |        |           |        |           |           |

#### C. Work Process Outputs (Least important)

- These describe what must be done daily to deliver the program.
- Reflect more the work performed within the program rather than the extent of achievement of the program's objectives.
- Not likely to be viewed by the public as a benefit.

| Examples of Work Process Ou    | tputs: |        |           |        |           |           |

**Step 3:** Develop performance measures.

Choose measures that can be used for planning, to quantify the performance of the program,
 as well as to monitor and evaluate the degree of success in achieving results developed in Step
 2.

- Each program should have at least one, and preferably, two or three good performance
  measures that describe the overall performance accomplished by the program as a whole a
  statistical measure, if possible. Statistical measures must be reported in State fiscal years.
- Performance measures should be based on current-level funding.
- The performance measures submitted should be the "client benefits/impacts" type.

The focus for the FY 2007 program narrative is to show:

- The trend of your program's actual performance for the three most recent fiscal years (FY 2003 through FY 2005)
- The FY 2005 estimate of your program's performance
- The performance level goals the program is trying to achieve in FY 2006 and FY 2007 based on current-level funding.

#### **Updating Statistical Performance Measures**

- 1. Begin with the narrative file on the diskette from the State Budget Office.
- 2. Delete the tabbed columns marked in gray as shown below (the format of your statistical performance measures should look similar to the following ones). The remaining three groups will be the first three for the FY 2007 narrative.

NOTE: Do NOT change last year's numbers in the "Estimated 2005" group.

| Example (How to Update from FY 2006)                  |                    |                    |                |                    |                |                |

<u>CURRENT LEVEL</u>: The Current Level is defined as one hundred percent (100%) of the <u>dollars</u> a division was appropriated for each General Revenue/Lottery Fund in FY 2006, less any "one-time" appropriations as listed in the Legislative Budget Digest or from surplus appropriations.
